## 1. Introduction and welcoming

The Rally Islas Canarias reaches this year 2017 its 41 editions and it does, one more year, within the FIA European Rally Championship (ERC). If for all the Organizing Committee that I preside it is a great pride to be able to be within the program of a championship of the level and importance of the ERC, even more this season in which only eight tests that compose its calendar.

This year more than ever, the Canaries can boast of having their rally in the European elite and this gives even more desire to surpass the organizational bar so high that we established in the edition number forty. The 2017 has to be remembered by fans and teams, so we worked hard to offer a sporting spectacle to the level required by the FIA European Rally Championship.

The itinerary will present many new features, that we are sure will allow the Rally Islas Canarias to continue growing and giving the image that deserves a territory like our Archipelago. Las Palmas de Gran Canaria will be more prominent than ever when hosting a stretch urban show and some of the most picturesque and emblematic municipalities of the island will also have a greater specific weight in the development of the test.

We are also very proud to have been chosen as the venue for one of the FIA Junior European Rally Championship's six scoring events. With this new ingredient and with the new impetus that the Spanish Federation RFEDA is giving to the Spanish Championship of Asphalt Rallies (CERA), we are convinced that the Rally Islas Canarias will offer to the fans one of the most Attractive of the last seasons. All this, not forgetting the Canary Championship Rally Asphalt and the Las Palmas that will make it possible for some of our best teams and drivers to measure the great stars of the ERC and CERA.

Although this past edition we got a great note from the different observers of the FIA and RFEDA regarding safety measures, thanks in large measure to the great collaboration of fans, this Organizing Committee can not relax. Therefore, this year we will devote many resources and time to adapt the route to the highest international safety standards. Once again, we ask the fans all possible collaboration so that nothing and no one slips an edition of the Rally Islas Canarias that has to remain for the memory.

Mr. German Morales  
Organizing Committee Chairman of the 41<sup>st</sup> Rally Islas Canarias

## 20. Information about Gran Canaria

### Climate in Gran Canaria

The Gran Canaria's Climate is characterized by an average annual temperature between 18 and 25°C, with an estimated annual rate of 2.700 hours of sunlight, and a fresh and humid wind, coming from the Azores' Anticyclone, the trade winds.

Due to the unusual relief of the island there can be found a great variety of microclimates. On the southern slopes of the island, in coastal areas, the climate is dry and sunny almost all year round. In areas of higher altitude, the influence of the sea is reduced and the clouds are detained by the mountains; that produces great variations of temperature from the temperature of Midlands or valleys and subtropical forests to the highest areas, where the temperature can reach 0° C. This allows people to enjoy completely contrasted climates in two different areas of the island.

### Time Zone

Time zone in Spain is UTC +0 (Universal Time Coordinated) CET -1(Central European Time). During rally period is Wintertime which is GMT +0
